prior to the training.***

## **Course Description:**

This course is designed with the expectation that a basic HIV knowledge course has been completed: This will include but not limited to HIV epidemiology in SC, Natural history of disease, transmission and risk reduction, and adherence issues.

Topics to be covered and specific skills to be practiced include:

- Participants will be provided with the findings of current HIV research published in peer-review journals or presented at national conferences,
- Become familiar with current HIV care management and treatment guidelines,
- Provided with updates on the various research and surveillance activities at SC DHEC, and
- Updated on any changing policy in the HIV/STD Division specifically regarding client-related activities.

## **Prerequisites:**

- HIV, STD, and S.C. Law or an equivalent HIV Facts based course.

## **Audience:**

All Health and Human Services Providers

## **Instructor (s):**

Wayne Duffus, MD, MPH, Ph. D

## **Training Hours:**

4.0

***Continuing Education Units available.***

## STD/HIV Division
